

MOPC Network Install Shoot: Ad Guide

Thursday, October 8, 2026 · Photo and video by Matt Dunlop · One install and one repair in Pictou County

A guide, not a script. Every voice in these ads has a face, and every line comes from a real conversation on the day.

Ground rules for every spot

- **Face first.** Every spot opens on the person who is talking, in their own sound. B-roll of the work cuts in only after we have seen who is speaking. No voiceover from someone we never see.
- **Eye line.** The speaker talks to Matt standing just beside the lens, documentary style. This keeps the brand rule of no direct eye contact and still feels like a real conversation.
- **Questions, not lines.** Matt asks questions and never feeds lines. We keep what people actually say. The gist below is what we hope to hear, not words to repeat. One real take beats five rehearsed ones.
- **The opening seconds.** A face and "Pictou County" within the first 3 seconds on Meta and the first 5 seconds on YouTube, spoken or as a name tag.
- **Captions.** Burned into every Meta cut, since feeds start muted.
- **Ending.** MOPC Network end card: "Check availability at mopcnetwork.ca". The call to action can be someone saying it naturally, or just the card.
- **Brand limits.** No speeds, prices or competitors. Nobody promises what another address will get.

Meta (Facebook and Instagram)

Ad	Who's on camera	The moment	What Matt asks
Bob A	Homeowner	At the kitchen table on a video call with family after the install, then talking to Matt	"Who do you call the most?"
Bob B	Installer and homeowner	Introductions at the door, a quick chat on the porch	To installer: "How long have you lived around here?"
Bob C	Homeowner	On the porch after the install, talking about the day	"What were you expecting today? How did it go?"
Olivia A	Homeowner	Puts on music or opens social media once connected	"What's the first thing you'll use it for?"
Olivia B	MOPC staff member	At the truck or office, explaining that every address is different	"What do people ask when a neighbour got fibre and they didn't?"
Olivia C	Installer	Driving or walking through town, waving to people they know	"What do you like about working around here?"
Family A	Household members	Everyone on their own device after the install	To parent: "Who's online in this house on a weeknight?"
Family B	Parent (kids only with signed consent)	Kitchen table, talking about school nights	"What are school nights like here?"
Family C	Homeowner	Inside as the light fades, talking about fall evenings	"What do your evenings look like this time of year?"
Paul A	Homeowner, if they work from home	At their home desk	"What does a normal workday from here look like?"
Paul B	Same person	Close shots of the setup, then talking to Matt	"What used to slow your day down?"

Ad	Who's on camera	The moment	What Matt asks
Paul C	Technician on the repair	Talking while they work	"Walk me through what you're checking."
Referral A	Homeowner, with a neighbour if willing	Chatting across the driveway	"Would you tell your neighbours about today?"
Referral B	Homeowner	Talking about family coming for Thanksgiving	"Who's coming for Thanksgiving?"
Medical Alert A/B	Not covered on Thursday	Needs a separate shoot with an eligible customer	Not applicable

YouTube

Spot	Opening: face first	Middle: gist, not words	Close
Bumper A (6 s)	Installer on the porch, name tag "Pictou County"	B-roll of hands at work, on-screen text: "See what's available at your address"	End card
Bumper B (6 s)	Homeowner laughing on a video call, in the call's own sound	Homeowner to Matt: glad it's sorted	End card
Bumper C (6 s)	Installer: every address is different	B-roll of a town home, then a rural home	End card
In-stream 15 A	Homeowner: why they looked into it	Installer: fibre or wireless depends on the address. Staff member: we check your address first	End card
In-stream 15 B	Technician arriving at the repair	Technician finds the fix and explains it, then the homeowner reacts	End card
In-stream 30	Homeowner at the door greeting the team	The day in order: arrival, hello, the work, connected, goodbye. Homeowner, installer and staff each speak on camera before their b-roll	Staff member or homeowner: check what's available at your address, then the end card

Before Thursday

- **Ask Rhiannon:** does the homeowner work from home? Are there kids, and will a parent sign a release? This decides whether Paul A, Paul B and Family B can be shot.
- **Releases:** signed photo and video releases from everyone on camera. Keep house numbers, street signs and personal details out of frame.
- **Thanksgiving deadline:** Bob A and Referral B need to be cut by October 9 or 10 to run before Thanksgiving on Monday, October 12.
- **Formats:** shoot vertical (9:16) and horizontal (16:9) so clips work on Reels, Stories and YouTube.
